

Triple-Glazing Solution

Triple-Glazing Solution

Profile 22 systems can achieve impressive WER and U-values with double-glazed units, but why not offer your customers the opportunity to upgrade to triple-glazed units?

The new Triple-Glazed profile system from Profile 22 combines striking aesthetics with superb thermal efficiency credentials, and can reach U-values as low as $*0.8\text{W/m}^2\text{K}$.

And with improved sound-proofing, insulation and thermal performance, it's just as easy and quick to fabricate and install as all our other products.

*Calculated in accordance with BS EN ISO 10077-1: 2006 and BS EN ISO 10077-2: 2003.

Superb thermal efficiency

- Capable of achieving a U-value as low as 0.8
- Helps to reduce energy-consumption within the home
- Improved acoustic performance
- Maintains the slim, attractive appearance of profile system
- Complete range of fully-suited hardware available
- Can be used in a wide range of applications
- Optional RCM reinforcement
- Available as standard in white, Rosewood and Antique Oak, as well as an extensive range of coloured and woodgrain foiled options
